

Worship Team Expedition

take it to
the next level.

Week 1 Discussion Guide

At worship team rehearsal this week, take just a few minutes at the beginning to gather the team and talk through these questions. These group discussions will help you to encourage one another along the way and will provide accountability for the group. The head knowledge you pick up during these weeks will only go so far. **You'll really get traction to actually go to the next level when your behavior changes— for instance, walking more closely with Jesus and practicing!**

Peter talked about feeling he was “born to do this” when he reached the summit of Mt. Rainier and how it was especially satisfying because of overcoming previous failures and the work he put into training. What has been one of *your* most rewarding accomplishments in life? What did it take to accomplish that?

What is most important thing you learned (or were reminded of) during the kick-off weekend? How can you/we put that into practice on our worship team?

What is one change (small or big) you know you need to make to be more effective in your role on the worship team?

What is something you can take off your plate during this season to commit to this team?

And finally...

Did you read the devotional or spend regular time with Jesus this week?

How much time did you spend preparing for this week's worship set?
