

Worship Team Expedition

Week 6 Discussion Guide

At worship team rehearsal this week, take just a few minutes at the beginning to gather the team and talk through these questions. These group discussions will help you to encourage one another along the way and will provide accountability for the group. The head knowledge you pick up during these weeks will only go so far. **You'll really get traction to actually go to the next level when your behavior changes— for instance, walking more closely with Jesus and practicing!**

In the video, Peter talked about the team being fully aligned behind a vision. How aligned do you feel your team is behind the vision of the church and worship ministry? Don't dance around this, say what you really think! What is one step the team could take towards better alignment?

Let's "walk in their shoes" for a minute (look at it from another's perspective). Ask someone on the team to share with the group an aspect or two of his/her role that the group may not know about. Find out one important way the team could better support this person. Then tell that person how much you appreciate all that he/she does for your team!

What is the most important thing you learned (or were reminded of) from all the online materials (videos, devotion, etc.) this last week? How can you put that into practice on your worship team?

And finally...

Did you read the devotional or spend regular time with Jesus this week?

How much time did you spend preparing for this week's worship set?
